Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-22, drawn to charging a toll by matching map information with vehicle position information, classified in class 705, subclass 13.
 - II. Claims 23-30, drawn to charging a toll by continuously assessing state information and lapses of time, classified in class 705, subclass 13.
 - III. Claims 31-32, drawn to charging a toll at a prescribed charging frequency, classified in class 705, subclass 13.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as tracking the location of a vehicle for non-toll purposes. See MPEP § 806.05(d).

Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as tracking the location of a vehicle for non-toll purposes. See MPEP § 806.05(d).

Inventions II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such

as performing an error check on time-based data for non-toll purposes. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for either Group II or III, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for either Group I or III, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group III is not required for either Group I or II, restriction for examination purposes as indicated is proper.

4. A telephone call was not attempted because the requirement for restriction is complex since a three-way restriction has been applied and the Applicants reside in a foreign country. See MPEP § 812.01.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
